

Application Dossier – REEF PARTNER

For the development of a coral reef conservation program in partnership with The Coral Planters.

Founded in 2017 and recognized as being of public interest, The Coral Planters is a French non-profit organization committed to coral reef restoration, the creation of new marine protected areas, and raising public awareness about the beauty and fragility of the oceans.

Our actions are based on three pillars:

- Participatory marine conservation: development of coral restoration programs in collaboration with local stakeholders.
- Awareness-raising: education and mobilization of local and international communities around coral reefs and the threats they face.
- Participatory science: contributing to scientific knowledge on coral reef ecosystems and their restoration, in line with the needs of field partners.

Eligible projects

Projects are eligible to apply if they:

- Have a structure recognized by the local government.
- Address an environmental issue related to coral reefs.
- Involve local populations in the implementation of the project.
- Have a designated project leader.

Required documents

- Official status of the organization
- Project budget forecast
- Project photos
- Organizational chart of the local structure
- CV of the project leader
- Communication materials if already developed (optional)
- Any other relevant documents related to the project

This Word version can be used to complete your answers. Once finished, please complete the online form and send it to submit your application.

Applications are open until October 31, 2025. You will be contacted no later than Tuesday, November 30 with a response regarding your application.

For any additional questions, please contact: sebastien@thecoralplanters.org
(*mandatory questions)

General Information

Name of the local entity *:

Country *:

Full name of the project leader *:

Email address of the project leader *:

Project summary * (500 characters):

Detailed Information

Nature of the local entity (NGO, association, foundation, company, etc.) *:

Mission of the local entity (max 300 characters) *:

Number of employees and/or volunteers in the local entity *:

Address of the local entity *:

Date of establishment of the local entity *:

Website of the local entity, if any:

GPS coordinates of the project *:

Surface area of the project site:

What are the detailed objectives of the project, expressed in figures? *

What do you expect to find and bring to The Coral Planters? *

What is the local context of the project area? *

Tell us the history of the project *

Who are your partners in this project (and what are their roles)? *

Field Aspect

Your project aims to (tick one or several boxes) *:

- Protect marine biodiversity
- Restore marine biodiversity
- Raise awareness on marine biodiversity

What technical means are you planning to use? *

What results do you expect in the short, medium, and long term? *

Social Aspect

How are local populations involved? *

Who are the direct beneficiaries of the project? *

Who are the indirect beneficiaries of the project? *

What is the reaction of local populations toward the project? *

Financial Aspect

What would be the necessary cost for the project's launch phase? (Excel budget table) *

What is the total annual budget required for the project's operation? (Excel budget table) *

What is the minimum wage in the country? What is the average wage in the country? *

Do you receive any other financial support for this project? If yes, which ones?
